LEARNING ABOUT YOUR DR. DABBER AURORA

CERAMIC MOUTHPIECE
Clog free ceramic fluted mouthpiece

ATOMIZER
Vented heating chamber where product is loaded

AIRFLOW REGULATOR
Vented regulator shell

5 CLICK BUTTON
Power button with a five click on/off safety feature
(3 Click variable voltage feature)
(3 Different heat settings to choose from)

LITHIUM-ION BATTERY
High capacity battery
Click the button five times to turn off the battery & five times again to turn on the battery. This safety cutoff is employed so as to avoid the vaporizer pen turning on when not in use.
Click the button 3 times to change the heat setting.

- Green indicates low heat
- Blue indicates medium heat
- Pink indicates high heat

THREE CLICK VARIABLE HEAT
HOW TO LOAD YOUR DR. DABBER AURORA

1. Pull mouthpiece upwards to separate the airflow regulator from the heating chamber of your Aurora pen.

2. Prepare your product and load directly onto the heating chamber (atomizer). Ensure direct contact is avoided between loading tool and heating element.

3. Once your product is properly loaded, reconnect airflow regulator to heating chamber. Ensure chamber is not overloaded as this can cause the product to fail and will not be covered under warranty.

4. Press the button on the battery 5 times quickly to turn the unit on. Then press and hold the button while inhaling to administer vapor.
CHARGING YOUR DR. DABBER AURORA

DR. DABBER

AURORA
